

Image 01 (above)

This illustration is a view of the proposed redevelopment looking northward from the bus shelter alongside the Briar Leaze access road. From Benson Hall on the far left of the picture, the land slopes up to Nos. 9 and 10 Briar Leaze on the far right.

Image 02 (below)

This is a bird's eye view as seen from above and behind Nos. 9 and 10 Briar Leaze, facing in a westerly direction. In the far right of the picture, proposed Plots 12 and 13 would sit on the land currently occupied by the detached garages. The existing vehicle lane that runs past No.7 would be re-shaped, re-graded and widened to improve access for parking to proposed Plots 07, 08, 10, 11, 12 and 13.
